

DOUBLE ACTING COLLAR THREAD CYLINDERS

HYDRAULIC CYLINDERS

THE **RD-SERIES** IS A VERSATILE AND HEAVY DUTY DOUBLE ACTING CYLINDER FOR USE IN INDUSTRIAL APPLICATIONS REQUIRING HIGH POWER AND PRECISE POSITIONING OF HEAVY LOADS.

All RD-Series cylinders can be used in high working cycle applications and are perfect for bridge lifting, hydraulic presses, construction and maintenance applications. Cylinder body mounting threads and base mounting holes on most models allow greater mounting flexibility. All cylinders have a hard chrome piston rod, bronze overlay on the piston bearing area and retract side safety pressure relief valves to ensure long term, trouble free performance.
